Customer Reviews

Dear Patricia Cornwell, I wrote you a letter back in 2005 after you released Trace. I was, quite frankly, worried about the direction that you were taking poor Kay Scarpetta. And I must say that The Book of the Dead has not done anything to set my worries to rest. I'll start with the things that I liked. I read once that you should always open a critique with things that you like. I liked that you let Scarpetta finally make fun of herself for some of the conspiracies which she imagines are aimed in her direction. It beggared the imagination that absolutely everybody was out to get the poor woman. In this book, many people were *not* out to get her. And that was a refreshing change. And for that I give you an extra star. But, oh dear, the rest of the book... First of all, shock schlock is one of the most virulent diseases of modern airplane novels. The world doesn't need another entry in the race to find The Most Sadistic Serial Killer Ever. Just say no. Please work with a nice straightforward killing, and solve it! I realize that this sounds terribly retro. However, I am tired of seeing writers burn their creativity in an effort to imagine a string of ever more icky things to do with eye sockets and bath tubs. Second, you failed to get my disbelief to suspend. Too many coincidences. Too many links between all the characters and killings. Too much. Way too much. My disbelief actually didn't even levitate, let alone suspend. Honestly, I think that you ought to have a serious chat with your editor on this point. That is the person who should get paid to warn you that you have broken your

plot.
