It could be the shift in our thinking these days or maybe it was always like this. Taking responsibility seems to be less and less of an American trait among adults and, therefore, it will be a less likely trait of our children. As ashamed as I am to admit this, it took me over 30 years to begin to accept responsibility for my actions and for the situations I was at in life. When I did, EVERYTHING CHANGED. When the switch got flipped for me, I was reading a book a friend suggested: *The Slight Edge* by Jeff Olson. A week before I began the book, I had just encountered what felt like a devastating blow to my business. My earnings dropped over \$3,000 in just two weeks. Things were not going as I had planned. I felt far shy of the goals I had set for myself. All the time and effort I had poured into my business looked as if it had not paid off and I felt like I lost control of where I was going. So I did what most people would do - I blamed everyone except for myself. I started pointing the finger and saying, "this person didn't do what they were supposed to do and this person didn't do that, etc." To me, there were a bunch of people at fault and none were the person in the mirror. You know when you lie about something long enough, you start to believe it? Well, it works the same way when you're blaming others long enough. The more you blame others, the

easier it becomes and the more you believe it yourself. You will actually start believing itâ™s their fault. The problem with that is, it takes the focus off of the one person that can change the circumstancesâ | YOU. The only person you can control is you. You canâ™t control other peopleâ™s actions. I prayed for things to get back on track.
