# Mark Dion: Contemporary Artist (Contemporary Artists (Phaidon))

## Synopsis

This text explores the work of vanguard artist Mark Dion who has made site-specific projects all over the world which explore the relationship of Western art, literature and museology with the natural environment. His sculptures and installations often focus on contemporary environmental issues, and have the uncanny quality of film sets or dioramas. His life-size environments have included live and stuffed animals, plants, lab equipment, and museological displays of garbage. They present lyrical and funny investigations into exoticism, colonialism and environmental crisis.

## Customer Reviews

Mark Dion is one of those creative people, be they artists, scientists, scholars, cryptozoologists, inventors, novelists, or whomever/whatever, who hit up against the rigid parameters of where they find their work landing - then goes beyond. This book, in photographs and text, defines for those only now beginning to be aware of Dion's efforts, a sense of the who and what of this man. To get a wonderful peek inside the mind of a genius, obtain this book. - Loren Coleman

This was a request from my son in law. He loved it so I did too. Very pleased to find it.
