Second Book Of Practical Studies For Tuba

Synopsis

The second book of Practical Studies is designed to logically extend the techniques already presented in the First Book and also to introduce and develop new techniques and rhythms that will offer a challenge to the intermediate student. Through the use of slightly more difficult and more extended studies, it is hoped that the material included in this book may more fully develop general musicianship and more feeling for style and interpretation and thus act as a foundation for solo literature.

Book Information

Paperback: 32 pages

Publisher: Alfred Music (March 1, 1985)

Language: English

Customer Reviews

I am in the process of switching from a Bb to a CC tuba, and this book along with the first volume are integral to my success. It covers a good range of key signatures, and helps to get the technical portion of the new instrument in my head. Great for sightreading practice and hearing intervals.

Great work!
