I am picking up my trombone after not having played it for about 10 years (after having played for 5 through middle+high school) and these pop melodies were fun and definitely easy, as the title implies. I would have liked them to be a liiiittle more difficult for the sake of sounding more like the songs (whether it was a few extra notes in there or some higher registers or some different keys --- all 3 of these cases exist within the book at different times). However, they are easy (and fun) pop melodies and it'd be great for an intermediate player to take this and learn how to add their own extra notes to make the music sound truer to the original tunes while learning improvisational techniques based on what is given. All in all surely worth the 5 bucks it costs.

A must for every Trombone player no matter your skill level. Easy key signatures- E flat, C, F, B flat

mostly. Lots of familiar and popular tunes. Music stand friendly. I'm near sighted but print is large enough to not need my glasses. Also puts chord change letters above measures.

Easy beginner melodys. Fun to play.

Just what I needed. Thanks!
