Investing money has always been dicey. Where should you put your hard earned money so that you reap the benefits after retirement? What happens when you retire, as in where do you get your source of income? All these questions can be mind-numbing. And these queries can be put to rest by reading this book by Robert Sagent. Itâ™s about day trading and ways you can delve in it without any qualms. It shows you what day trading really is along with its pros and cons. What are the different strategies that will enhance your chances of winning big? It also prepares you to have a right mind-set and it talks about the mistakes you need to avoid. An extremely interesting book from someone who knows what heâ™s talking about. Read it and get enlightened

Stock markets are always the best option for investment. Day trading is a good option to invest and earn money. We can say intraday trading is a situation where you invest money and pull it out all in the same day. With this book I understood how to go about trading on a daily basis and teach where to put in efforts to make the right investment choices. I recommend this to those who is just in stock

market and want to know about day trading. It is very informative and helpful. Thank to the author.

What a great book for me as a newbie in the world of trading. The book really gives a lot of information about trading that you will be made an ace in this business as you enter. You will learn not just the basic but also the complex of it. You will also be taught of the risk to prevent you from losing you investment. Indeed, a very genuine book for your to be successful in the trading business.

This book teaches me a lot. Like quotes, how to read stocks, tips, strategies and etc. It even provide information on how to choose the right investment firm. Now I understand the risk of ruin and capital and leverage. It even have some information about some common mistakes and how to focus on the fundamentals. Very Nice book indeed.

This book has greatly helped me understand day trading packed with helpful strategies to employ. This book has done a comprehensive comparison between Forex trading and multiple other trading platforms and goes ahead to illustrate why Forex trading has a better chances of succeeding. It has trained me on how to identify trends and opportunities.

Through this book, we will be able to learn some easy tips that can transform us into a savvy day trader. It explains various types of actions, how to read options tables, and how to trade options. It will also help us to understand the complicated jargon of the investment industry. In it, I've learned a Day Trading better. Overall, it is a well-written book that I highly recommend.
